EXPLORER

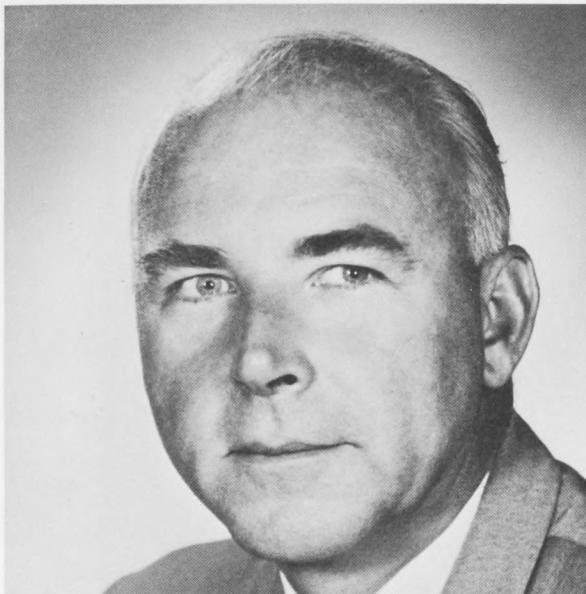

DEDICATION

A Dental Students education is made possible only through the help and support of many ... academic instructors, chairside assistants, dispensing staff, clerical and technical staff ... many more people than could be listed on any single page. Despite the position held, this help and support comes from those who have a common purpose; that of educating a future dentist.

In the year 1968-69 two such dedicated persons, each possessing that same purpose, retired after fulfilling nine years of faithful service ... service that was more than "just a job," but a contribution to the dental student and the profession that was given in kindness, understanding, diligence, and selflessness.

It is to Mrs. Roberta Jopling and Miss Mary-Jane Ego that we are proud to dedicate this 1969 edition of the Explorer.

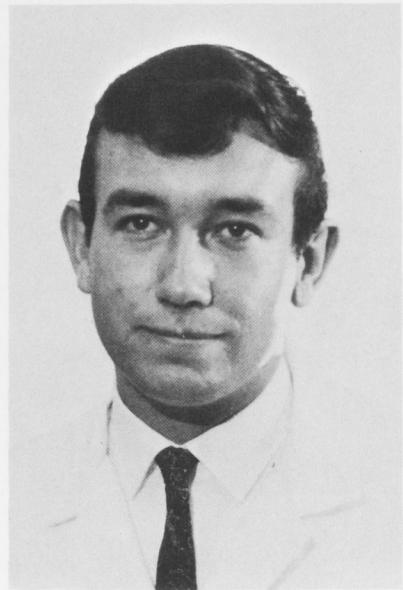

DEAN'S MESSAGE

During its four years in attendance here, the class of 1969 has probably seen more changes in University and in Faculty structures than has any of its predecessors. On the institutional side, student population at the University of Manitoba alone has increased over 50 per cent. This increase has been coincidental with the granting of charters to two other autonomous Universities in the Province. A whole new concept of university government has evolved whereby both students and faculty have gained representation on the Board of Governors, and students have now become members of the University Senate. In so far as the Faculty of Dentistry is concerned, the third floor addition has been completed, graduate student enrollment has tripled, classes in dental hygiene have almost doubled in size, and no fewer than nineteen new full-time academic staff appointments have been made, while eight faculty members have retired or have resigned in the interval. Students are now represented on several of the more important committees within the Faculty, and serious consideration is being given to having students on the Faculty Council in the near future. Last, but by no means least, the computer has been introduced to the clinic and vice versa.

This prior association with change should stand you in good stead when in May, 1969, you emerge into a social, scientific, and professional environment in which above all, change will be a constant. In recent weeks, I have heard what I consider to be serious and realistic prophets expound on the rapidly altering role of dental auxiliaries, on the proximity of at least partial denticare, and on the changing aspects of private practice, be it individual or group in nature. The successful implantation of individual artificial teeth, the long-sought solution to the caries riddle, the satisfactory application of better and more easily manipulated restorative materials--all these are thought by a good many optimistic but nevertheless well-informed observers to be somewhat closer at hand than ever before. Even pessimists will admit that these present hopes may well be realities before you complete your prescribed forty to forty-five years in practice. In the recent past too, approximately 90 per cent of all dental graduates have pursued careers in private practice, but there are indications that this figure will be reduced markedly in the last decades of this century.

The traditional aims and objectives of professional education must be re-examined in the light of these and other equally significant forces at work. If even a fraction of the foregoing comes to pass, it would appear that a primary aim of the professional faculty should be to prepare its graduates as best it can for an unknown but different world. All this is easier said than done, for the willingness to adapt obviously lies mostly within the person himself. There is ample reason to be somewhat skeptical of the claim that lectures, laboratories or clinics at the university level can by themselves alter fundamental character on a broad basis. Be it good or evil, personal professional and academic example probably plays an even more significant role in this complex field of adult human behaviour. Regardless of all this though, and whether you like it or not, in the next half century, continual change will be upon you for better or for worse. There will be, therefore a prolonged series of hard choices and traumatic adaptations which you as an individual must make. If you do not make them, you will first remain stagnant, then you become embittered, and finally, you perish.

EDITOR'S MESSAGE

The first and foremost thing in our minds is to thank all those who helped us with the yearbook. It may seem antiquated to thank people, but believe us, we would never have been able to come up with this yearbook had it not been for others.

We feel that a yearbook should try and cover all the people and events intimately involved with the faculty. We only hope that we have been able to adequately fulfill this ideal.

We are sure, although the years spent here may be hard and at times trying, that a lot of pleasurable memories will remain, and in the years to come these memories will be treasured.

We would like to think that this yearbook will help one recall these memories.

Your editors,
Jim and Bob

SENIOR STICK'S MESSAGE

I would, on behalf of the students, like to thank the editors and staff for the time and effort they have given, and the sacrifices they have made to provide us with such an excellent yearbook.

As one flips through the pages of the past editions, fond memories are all quickly recalled, whether it be a candid shot from a class party or simply a picture of one self and classmates back in first year.

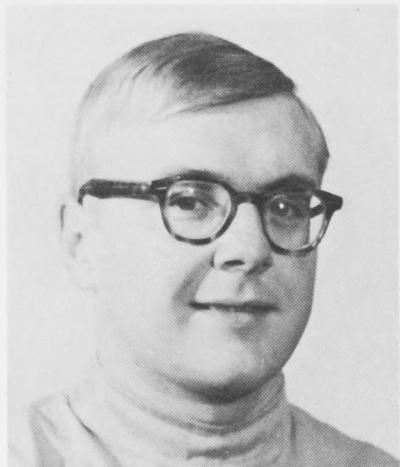

During the past year it has been my privilege as senior stick to be a part of an aggressive student council. We have worked for, and stressed student activities and student participation. Our yearbook staff has been a part of this as well. In years to come as our interest in student activities grows and develops, so will our yearbook, to bigger and better things. Remember, you and your classmates make the yearbook what it is.

I would also like to thank those students in the postgraduate programs for their increasing interest in our student activities. I hope they will continue to grow as well.

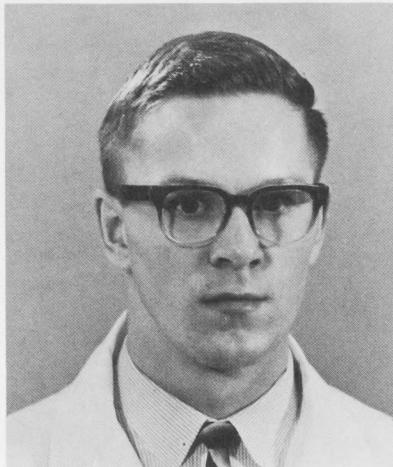

I would like to wish those members of the first, second, and third year classes the best of success during their years in dental school. I ask the members of our graduating class to take the time to glance through the old editions of the explorer. I hope you will find, as I have, that it may all have been worthwhile.

Les Allen.

SENIORS

EXECUTIVE AWARDS

MAJOR ATHLETIC AWARDS

MINOR ATHLETIC AWARDS

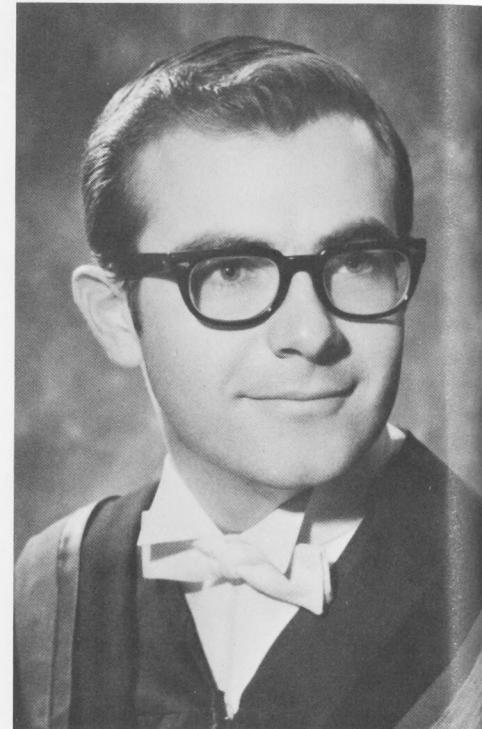

LESLIE STEPHEN ALLEN

Les headed our Student Council as Senior Stick this year. He obtained his Bachelor of Commerce degree previous to entering Dentistry. Les was active in hockey and curling as well as being captain of our football team. He is a member of Alpha Omega Fraternity. Les plans to set up a practice in Winnipeg. Married.

ALLAN BRIAN BAKER

Al came to dentistry with three years of predental education. He was president of his first year class, and social rep in second year. This past year he served as Vice-Stick. Al was active in hockey for four years and football for his third and fourth year. Plans to practice in Thompson. Recently married.

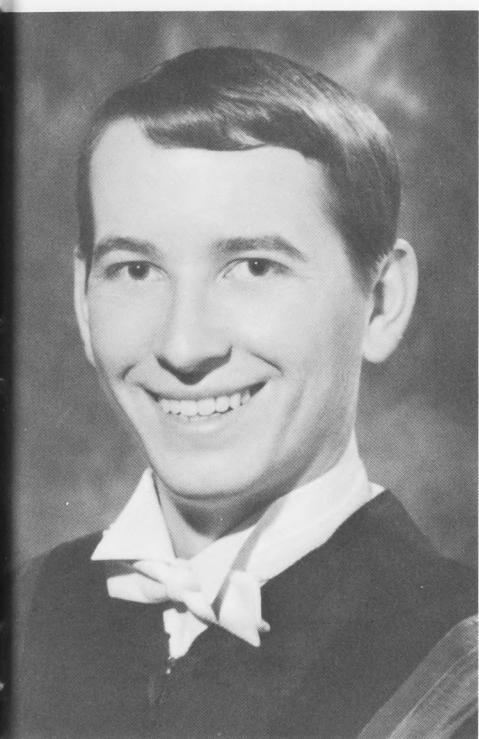

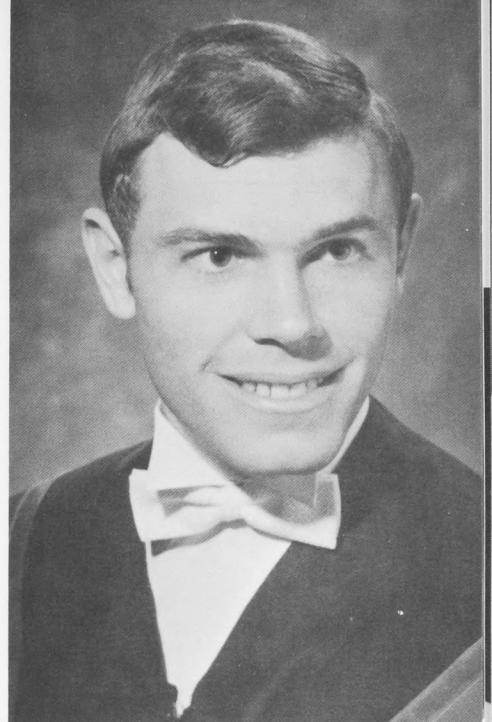

LYNN J. BAKER

Lynn is a native of Moose Jaw, Sask. His predental education was obtained at U. of Alberta. He was active in football and hockey in his years in Dentistry. Lynn plans to practice in Foam Lake, Sask. Married.

PAUL BEESLEY

Paul is a native of Moose Jaw, Sask., who had his pre-dental education at the University of Manitoba. Paul was manager of the football team and participated in basketball this past year. He is an active member of Xi Psi Phi Fraternity. Plans to practice in Moose Jaw.

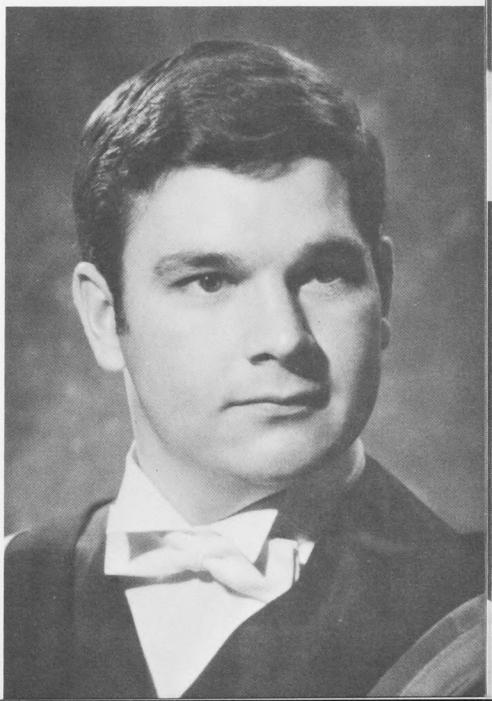

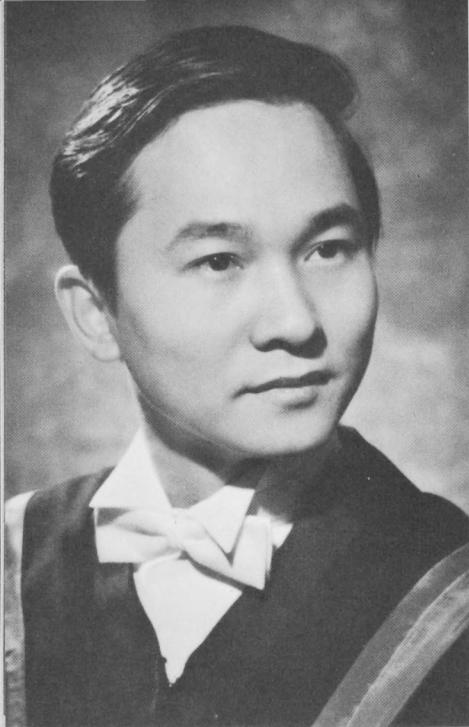

T. D. BRENEMAN

Tom comes to us from Calgary but previously attended St. Pauls College. He played hockey during his four years in Dentistry. Tom is a member of Xi Psi Phi Fraternity. Recently married. Site of practice is undecided.

JAN STEWART BROWN

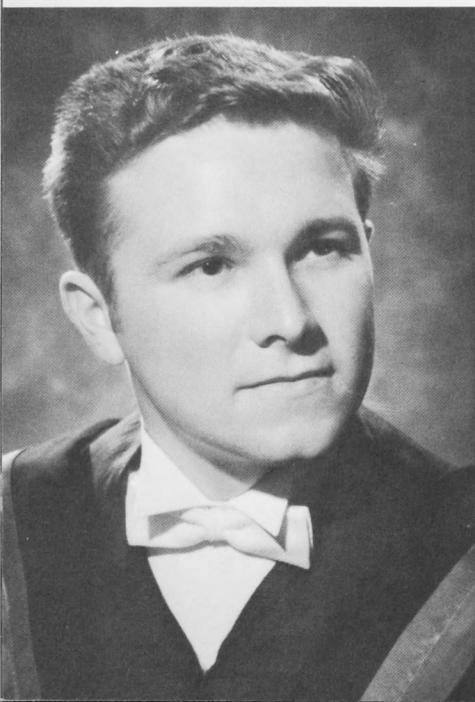

Jan took his pre-dent education at U. of M. He was active in football and hockey for four years, and this year took up basketball. Jan was our Sports Representative this past year. Member of Xi Psi Phi. Married.

CHEE-HIAH CHEN

Chee comes to us from Malaysia. He had two years at U. of M. prior to entering Dentistry. Interested in basketball, swimming, and table tennis. Chee plans to practice in Canada for a few years and then return to Malaysia.

HWA CHENG

Hwa hails from Portage La Prairie, and came to us after having taken a year of Science at U. of Brandon. Hwa is undecided as to her future practice but hopes to set up in Manitoba.

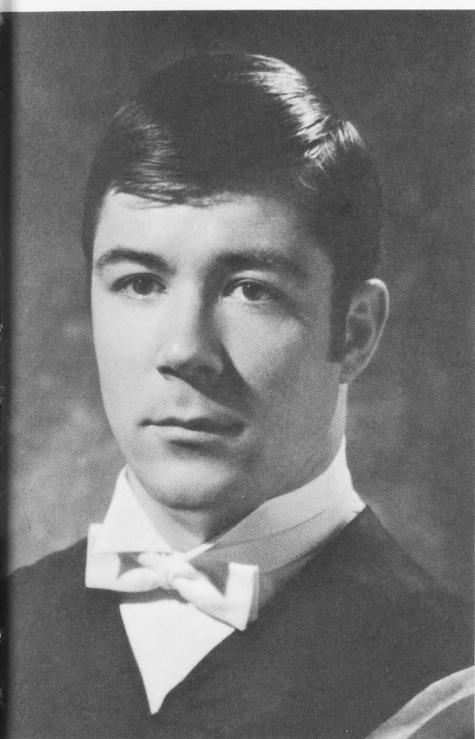

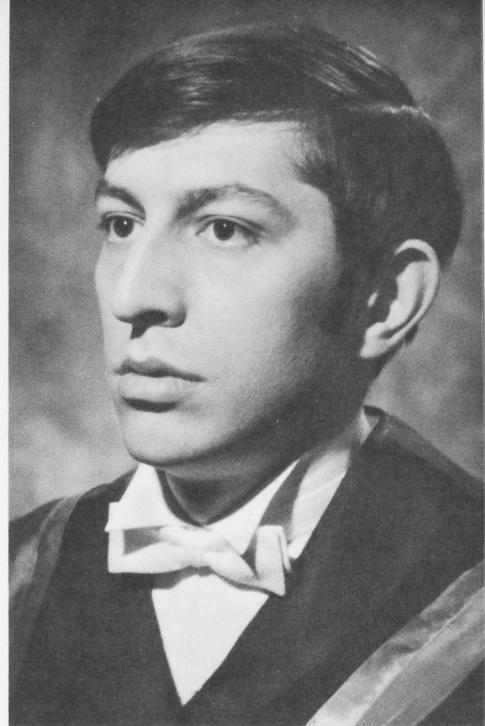

GORDON LEONARD FUNK

Gord is a Winnipegger who took his pre-dent at U. of M. He was an active member of Xi Psi Phi - Secretary for the past two years. Plans to practice in Winnipeg.

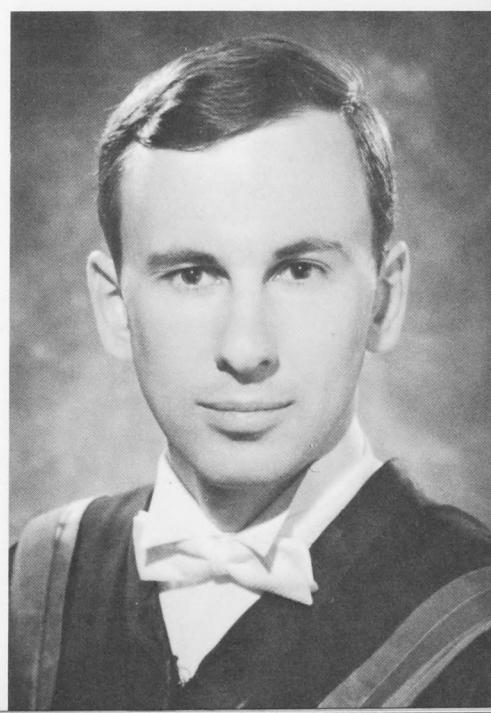

MARTIN GOLDBERG

Martin obtained his pre-dental education at U. of M. "Ace" plans to enter public health for a few years and then private practice later. Member of Alpha Omega Fraternity.

D. J. GREEN

Dan is a native of Regina, and obtained his pre-dental education at the U. of S. - Regina campus. Danny was president of second and third years, and Secretary-Tres. of the student council. He was president of Xi Psi Phi fraternity this past year. Dan plans to practice in Saskatoon. Married.

KENNETH JAMES KERR

Jim came to us from Dryden, Ont. He received his pre-dental education at U. of M. Jim was an active hockey star in his third and fourth years. He is married, his wife belonging to the M.D.S.W.A. He plans a Public Health Practice in B.C.

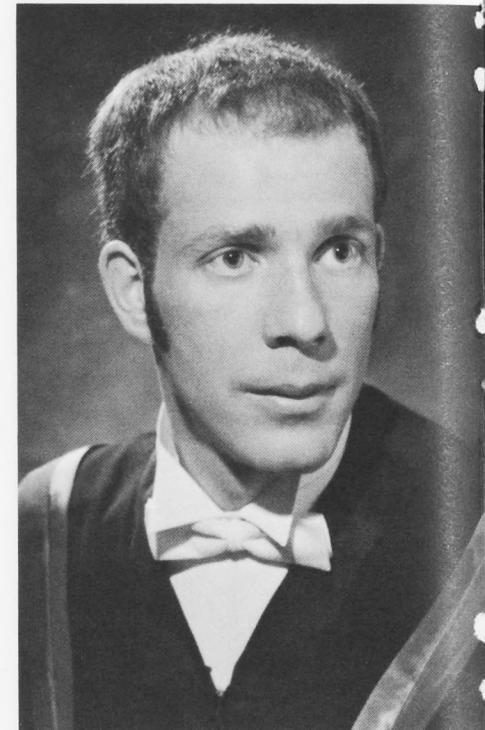

MAHESH KHERA

Panjab, India is his home. Mahesh received his university training in India before coming here for his Dental training. His interests lie in the field of photography and music. Mahesh's future practice is undecided.

JOHN KOST

The King is a native Winnipegger, having had his predental education at the U. of M. His interests tend towards girls and photography. To date John plans a practice in Brandon. Active member of Xi Psi Phi frat.

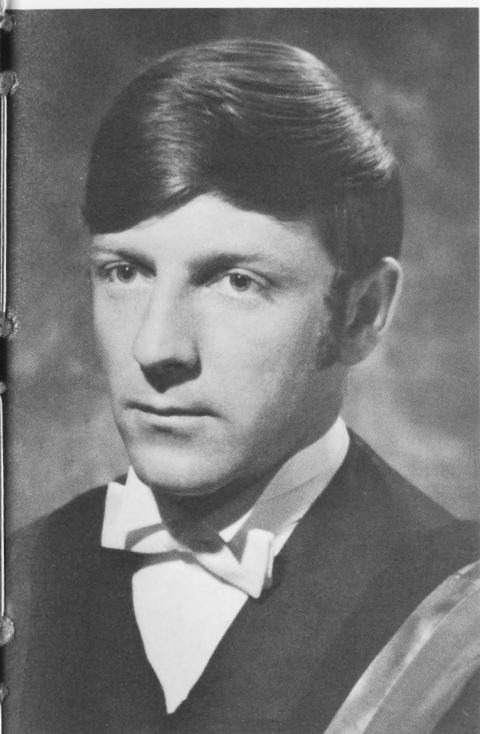

J. Greg Kozoriz

Born in Winnipeg. Graduated from Elmwood High, and took predent at U. of M. Greg served as co-editor of the '68 yearbook. This year Greg was class president and served in an advertising capacity for the yearbook. He has been active in hockey and golf for a number of undergraduate years.

Active member of Xi Psi Phi frat. Plans a Winnipeg practice.

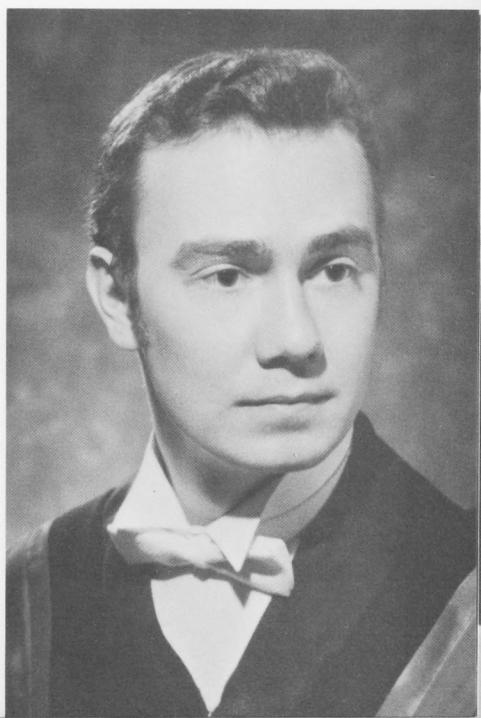

HARVEY A. KRYGER

Winnipeg is Harv's habitat. He is a member of the Alpha Omega fraternity. Harv has represented the faculty as an undergraduate representative at the International Convention, Washington Conference on Research. He has belonged to the U. of M. glee club for three years. He plans a summer marriage and a practice in Vancouver.

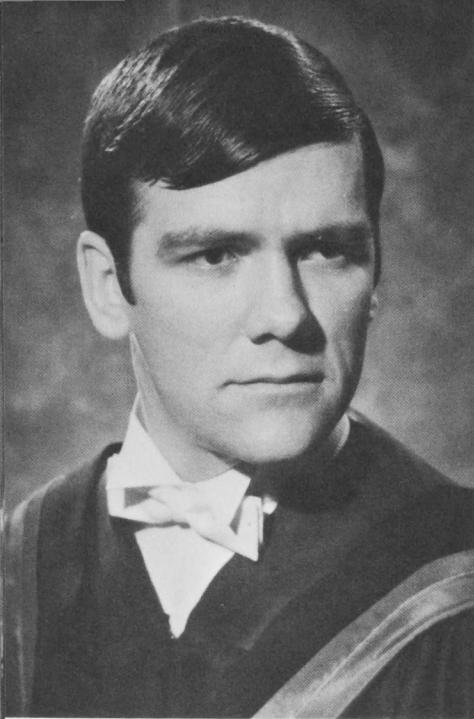

MORLEY GORDON McGILLIVRAY

Mo's home town is Regina. Present at U. of S. His interests lie in the field of hockey, having played all his undergraduate years, and football, having played during third and fourth year. Mo is a member of the Xi Psi Phi fraternity and plans a future Saskatchewan practice.

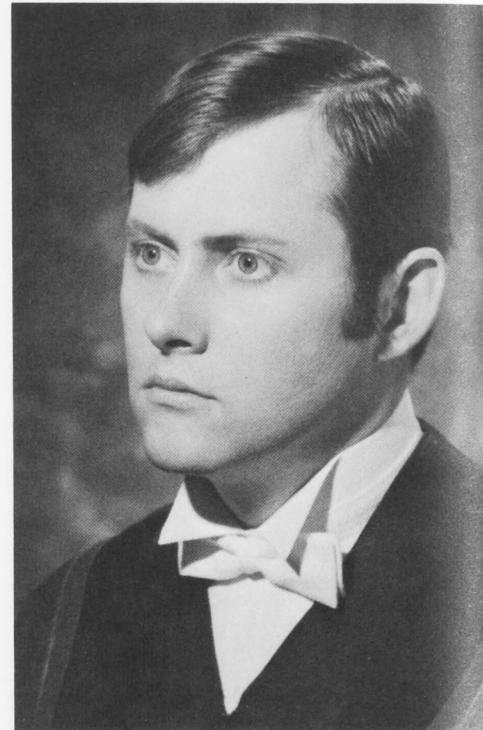

KEITH ROSS MORLEY

Born in Winnipeg, Keith received his B.Sc. degree at U. of M. before joining his colleagues at the faculty of Dentistry. Keith was quite athletically minded during his stay, having participated in basketball, swimming, and skiing. Keith's future practice will be decided by the R.C.D.C. Member of Xi Psi Phi fraternity. Married - one son.

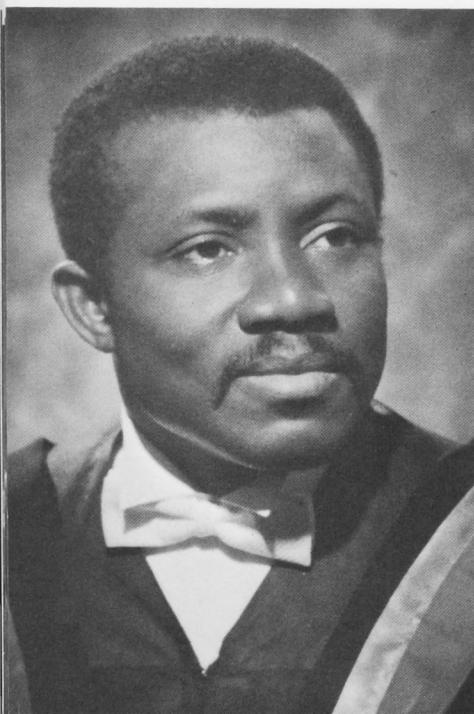

MALCOLM J. NATTRASS

Nat hails from that illustrious city of Regina, but took his prentent at U. of M. He was class social rep for a couple of years. Nat's interests lie in the field of football and basketball, having participated for four years. Member of Xi Psi Phi fraternity. Future plans include marriage and a private practice in Regina.

MARTY NEVILLE

Marty is from Neepawa, and took his prentental education in Manitoba. He is a member of Xi Psi Phi, and a star on the football team. Marty is single now, though not for long. His future plans will likely take him to Saskatchewan.

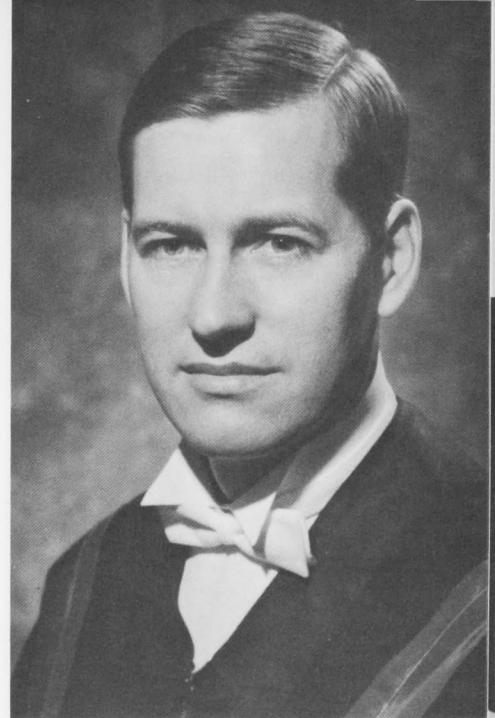

LEO OATES

A native of Jamaica. Leo (Soul) took his prentent at the University of Winnipeg. He finds his interests fall along the lines of soccer and girls. After a brief stay in Winnipeg, Leo plans to go back to Montego Bay.

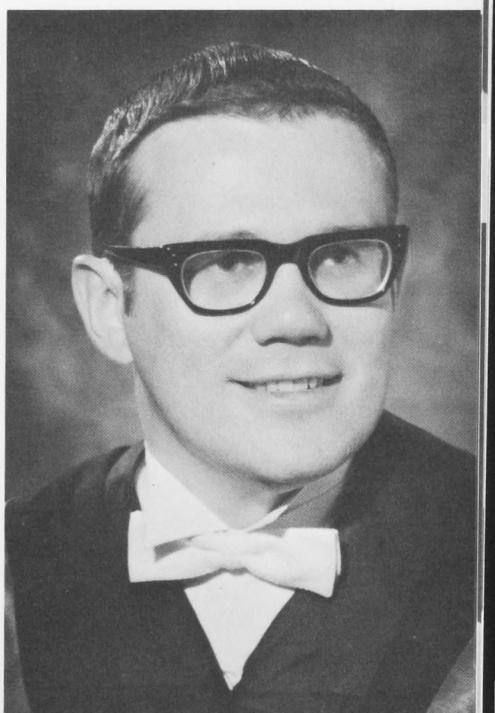

IRVIN OLAFSON

Irv hails from Sarnia, Ontario and is father confessor to our fourth year class. He received his pre dental education at U. of M. in Mechanical Engineering. Irv is married with four children. Upon leaving these hallowed halls of learning, Irv plans on a Sarnia practice. Married, his wife being president of M.D.S.W.A.

REG PARTON

Home town - Foxwarren, Man. Pre dent - U. of Winnipeg. Reg was sports rep while in third year and also served in the capacity of co-editor of the '68 yearbook. Reg played football and hockey for our Dentistry teams during his stay. He plans a future Nipawin, Sask. practice.

R. C. POCHAILO

Bob comes from Kenora, Ontario and plans to return after graduation. Pre dent was at U. of Winnipeg. An avid curler, Bob is an active member of Xi Psi Phi fraternity.

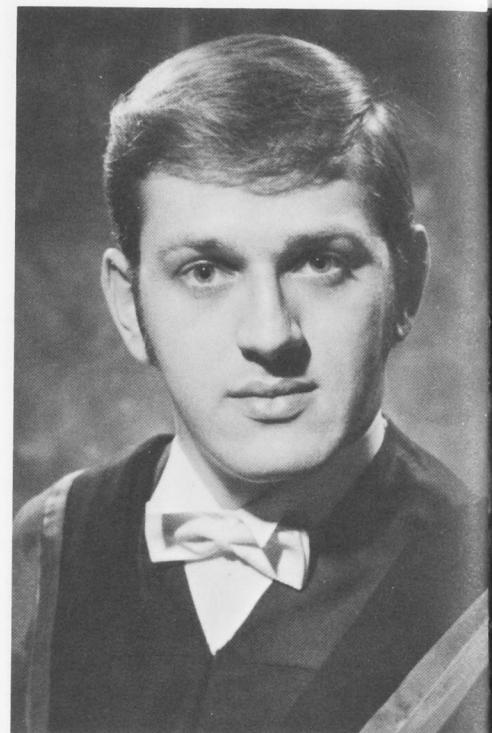

LEONARD ROY QUEEN

Roy is from Ridgedale, Sask., and went to the University of Saskatchewan for his pre dental education. Roy's interests lie in football, swimming, and curling. An active member of Xi Psi Phi. Roy's future practice is undecided.

NEIL H. SHAPERA

Neil is a native Winnipegger. He took his pre dent at U. of M. before entering our faculty. As well as being a ski enthusiast Neil played football while in third year. He was president of the active chapter of Alpha Omega Fraternity this year. Practice hopes lean towards B.C. or Ontario.

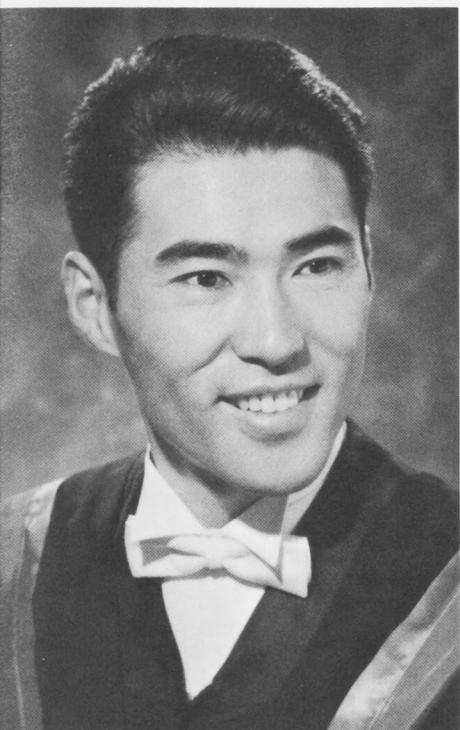

KEN STONES

Ken's home town is St. James. After his pre dent at U. of W. Ken lead an active political life in Dentistry, having served on the class council each year, and faculty council this year. Ken played football for us over the past two years. An active member of Xi Psi Phi. Ken plans on going to New Zealand.

I. B. Stronger

Barry hails from Winnipeg. He took his predent at U. of Manitoba, and received his B.Sc. degree there. He is an active member of Alpha Omega Fraternity, with practice hopes centered around Winnipeg.

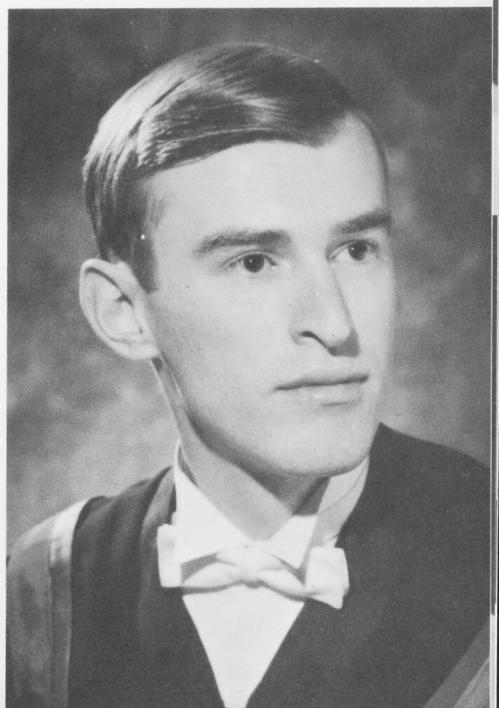

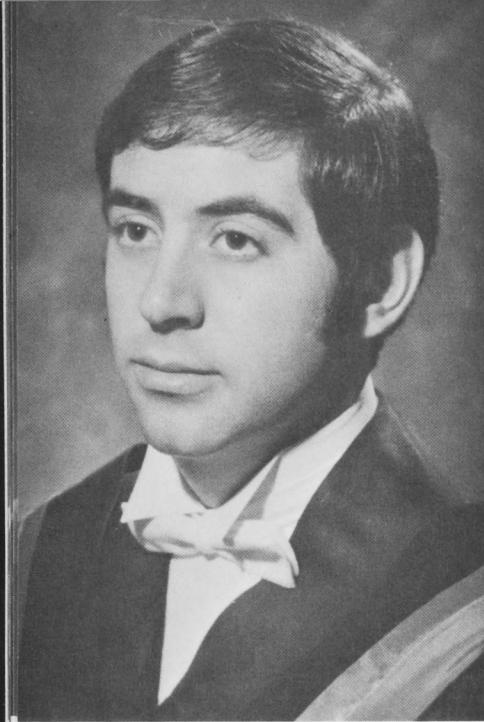

MAKOTO SUZUKI

Mike's home town is Tokyo, Japan, where he took his pre-dental training, and received his dental degree. He is married and has one son. Mike helped instruct part-time during his two years here. He plans to go to the University of Western Ontario in London, Ontario.

DAVID G. TARRY

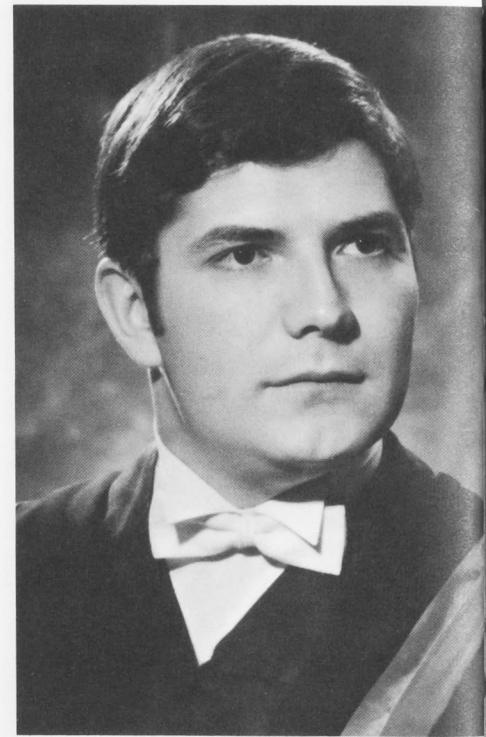

Dave is from Swift Current, Sask., where he plans to set up his future practice. He took his two years pre-dental education in the University of Sask. He has interests in music and handball. Dave is married.

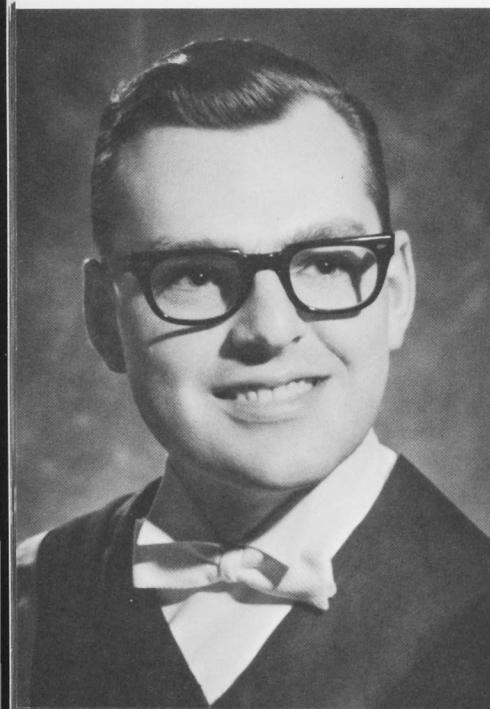

EARL S. WINESTOCK

Earl is from Winnipeg, and received his pre dental education at the University of Manitoba. He was the playing coach of the basketball team, and a member of the hockey football teams. His future plans are unknown at this time. Earl is single and has no children.

EDWARD W. ZAK

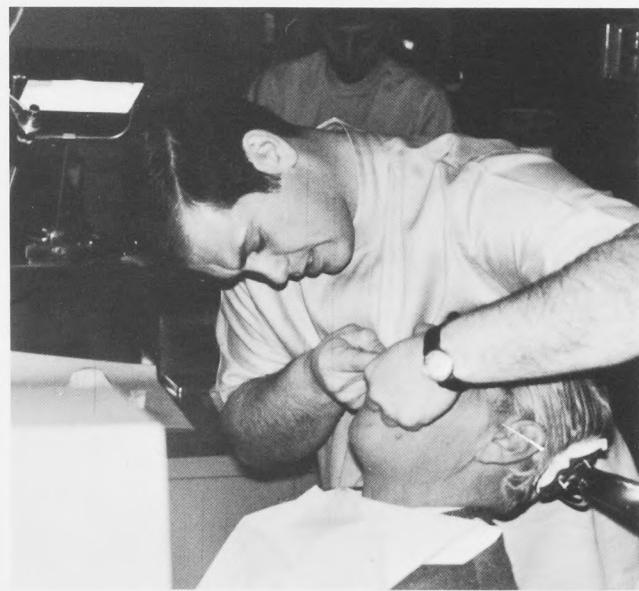

Ed originally came from Fir Mountain, Sask., but now considers his home town as Glenboro, Man. He played football during second, third and fourth year. Ed is an active member of Xi Psi Phi fraternity, and has other interests in bowling and curling. His future practice is as yet undecided.

LARRY ZOERB

Larry hails from Tisdale, Sask. He took his pre dent in the University of Manitoba. Larry is an active member of the Xi Psi Phi fraternity. His future practice is not decided yet. Married.

Dennis Birdsell

Joe Mak

Yearbook Rep.

Sam Adjaye-Kwofie

Started the Microbiology seminar in a typical Ghanaian style. Sam still receives many of Dr. Dawes' questions. Single.

D. A. Anderson

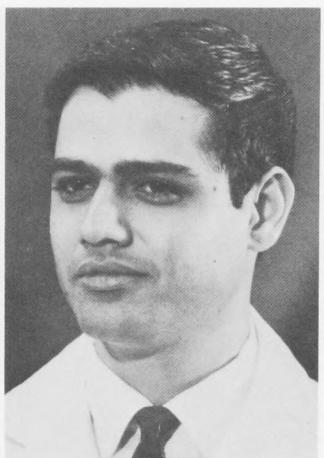

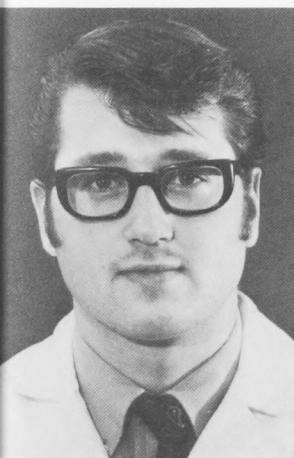

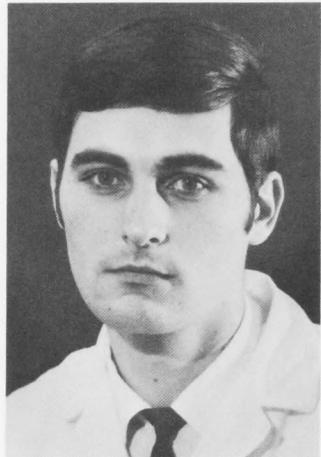

An amiable class president of questionable extracurricular activities . . . Doug's "enthusiasm" is a class trademark.

Donald J. Bachinsky

His answers to Dr. Dawes' questions are still "wrong." Very sociable. Sam's constant neighbour in lectures.

Dennis K. Birdsell

Dennis was very active in the first year despite his marital status, but his zeal went down this year when he was our social rep. (Directly proportional to his liquor habit?) Gave exotic seminar.

Don T. Bomback

Hard worker, always on his way to class. It is still a challenge for the class to get Don to participate in our class activities.

V. D. Chafekar

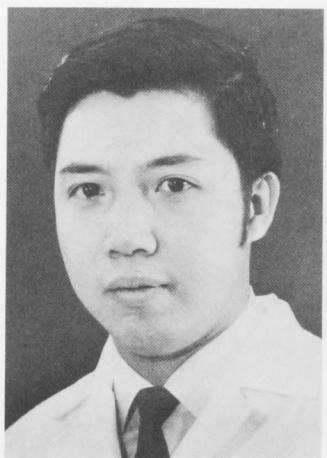

Our dentist from India. Very helpful instructing Restorative, but doesn't get paid.

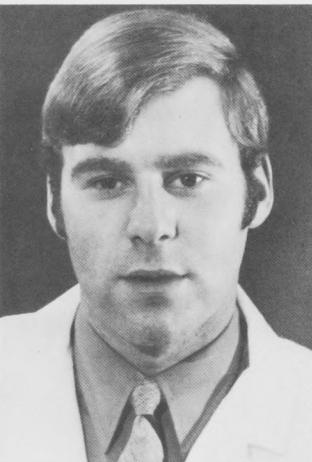

Dan K. Chan

One of the dependable Chinese boys who attends at least one of every four lectures. His favorite saying, "Do you know there are more Chan's in the world than there are Canadians?"

Edwin S. Daudrich

God's gift to women???? His ambition is to be a dental technician.

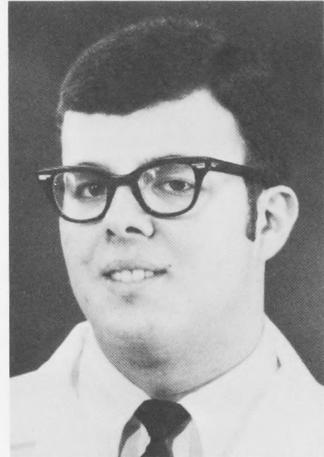

Luc Dugal

An imported athlete from France. "Car-mate" of Mrs. Gratzer to and from school. "Ribbit, Ribbit."

Martin G. Dveris

Marty emerged this year with a long dyed sideburn, with his best dress. Very cheerful.

Avrum R. Goldstein

Our future research worker in Oral Biology. Dr. Kleinberg's disciple. Active yet a steady worker.

Mrs. C. Gratzer

She loves to hum-m-m! The leather look seems to add to her sex appeal.

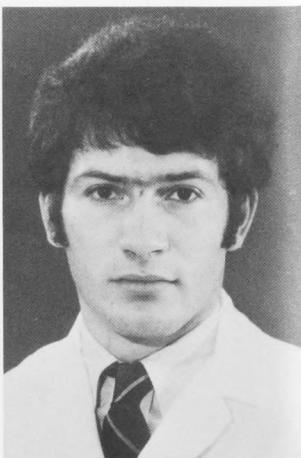

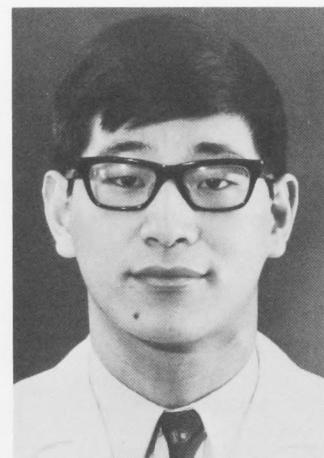

Frank J. Hechter

Frank receives more grants than anybody else in class. A unique feature of the class and looked at as a "living computer".

Richard H. Hunt

Jovial armed forces man. Enjoys all aspects of dentistry, especially impression making. Favorite expression - "That's it!"

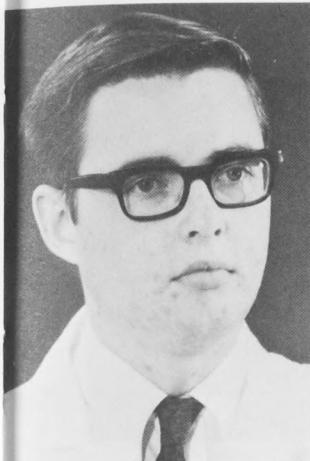

C.K. Ip

A man who has seen many suns while the rest of the class have not. Shares with Korol for his musical talents.

William H. Kettner

Bill seldom comes in before 8:05 a.m. Dress color contrast "sexy." He can sing too. Our "Fair Lady" star.

David R. King

Quiet. Sings once in a while, especially in the lab. Believes in mass production (including impressions). Single (but not for long).

O. W. Korol

Guitar Korol is well known. His lectures start at 8:08 a.m. Loves going to the zoo?

Bill Kozakewich

"Kaz" has more notes than anybody else in the class. He has never been seen without the big briefcase in his hand. Favorite saying, "Would you please repeat that lecture."

Ron Kryschuk

Ron has two basic goals in life - "To be a gold foil man" and "To have ten kids". His second goal will begin this summer.

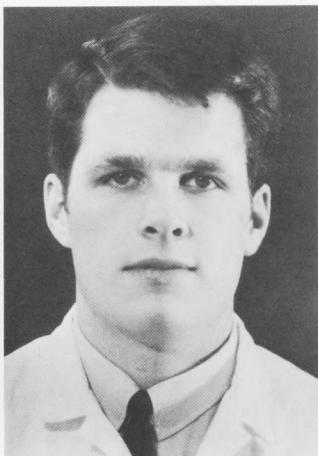

J. S. Mak

Brother Mak is Dr. Brass' Scottish friend. Constant worker. He became our yearbook rep just because he has a good camera. Single.

Ron Martin

The most "sporty" man of our class, enthusiastic in all kinds of sports. His voice can be heard miles away.

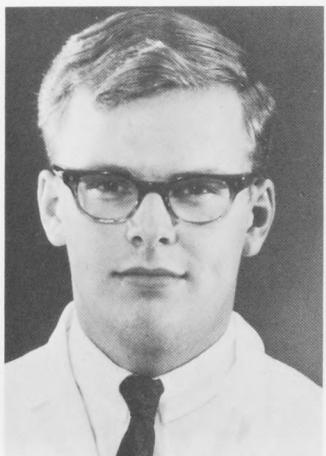

Dale A. Rustebakke

Owner of a one year old kid - extremely efficient. Efficient too are his hands. Frequently goes to coffee breaks.

Harold W. Trafananko

His face never goes without a smile - extremely cheerful. Record holder of rubber base impression taking.

Ron Watson

"Herpes" had the viral attack when "simplex" was being taught. A delight of the class. Our man for any "unsolvable" dental problem.

P. B. Wilson

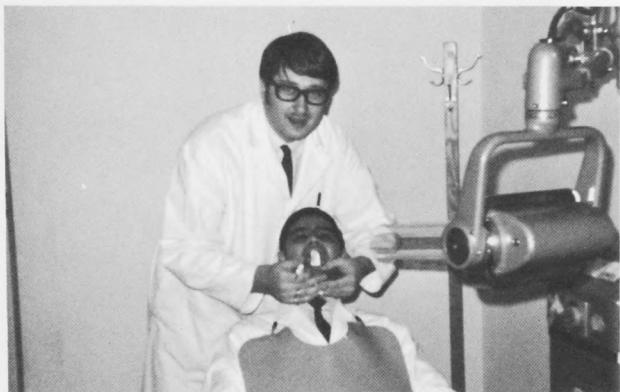

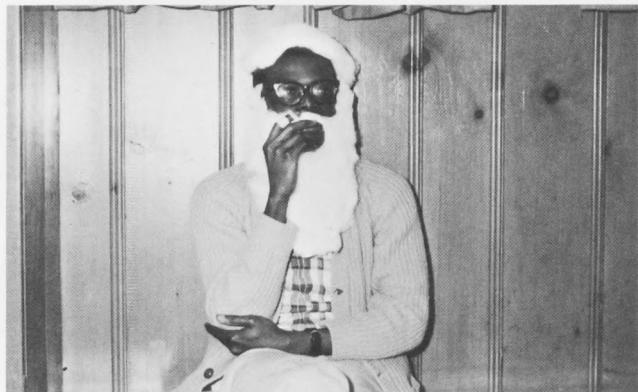

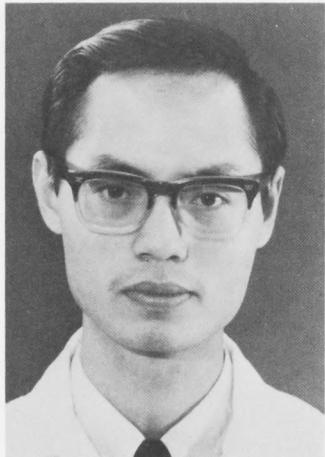

Recipient of the Prize for Dental Anatomy. Pete is very quiet except for occasional friendly confrontations with Dr. Lafleche.

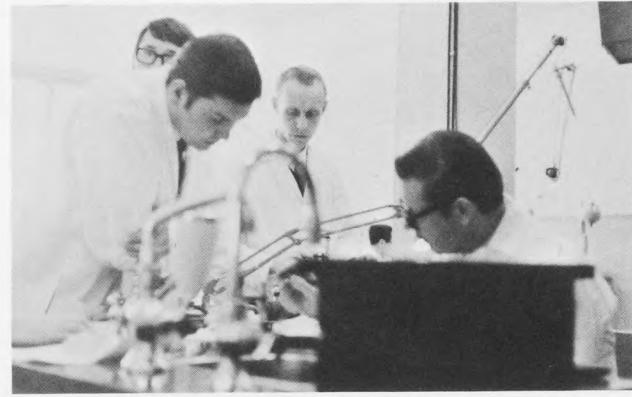

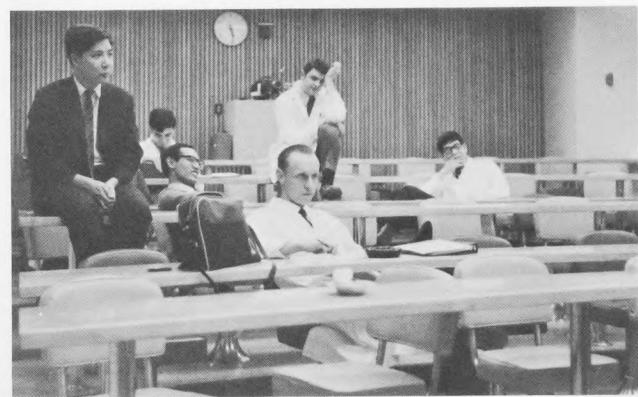

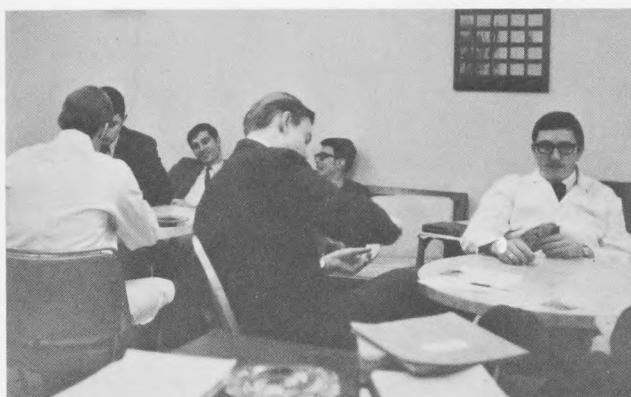

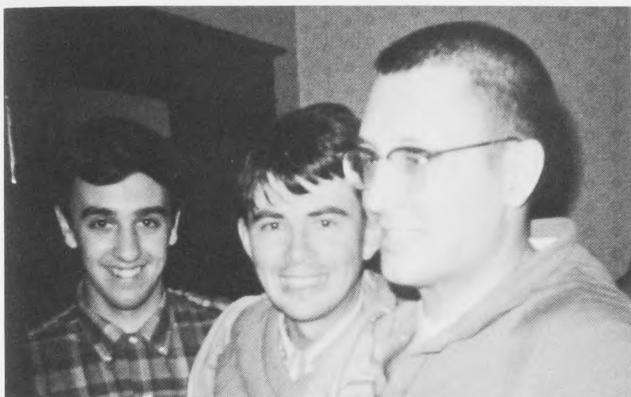

K. W. Yu

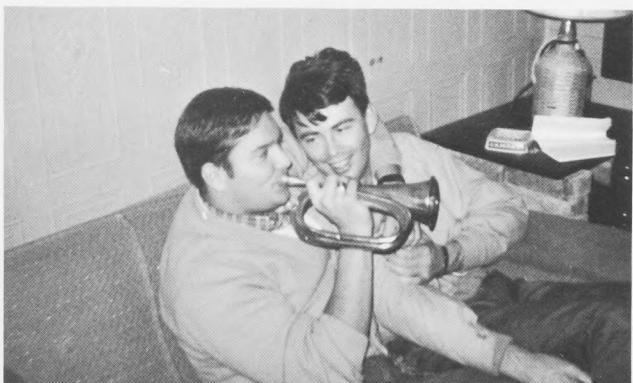

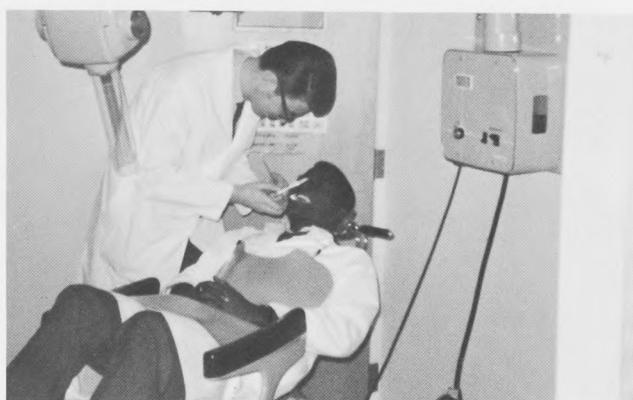

The lecture hall door is never closed to Peter. He writes more notes than is given. Single.

V. P. Zmiyiwsky

Worked on the third bridge when the class was half way with the second project. Flies to Detroit for a weekend stand.

FACULTY ADVISER.
DR. CARMICHAEL.

FRESHMEN

CLASS EXECUTIVE

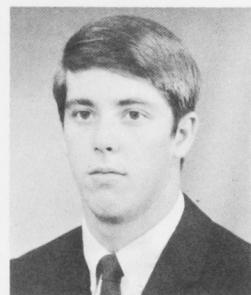

President.

Bob Sorochan

Vice-Pres.

Ed Agnew

Sec.-Treasurer.

Ian Fraser

Sports.

Ron Boyar

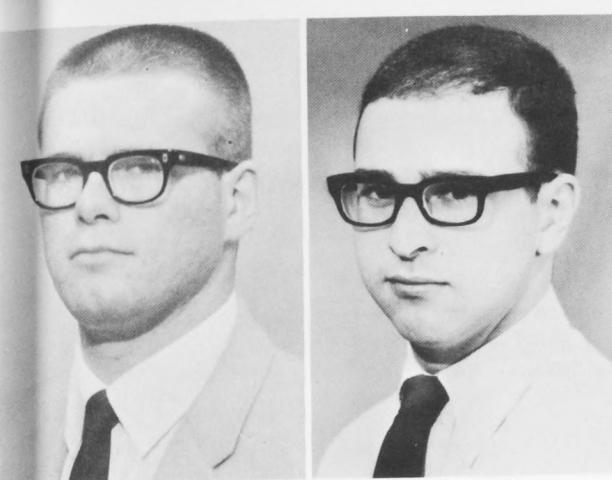

Social.

Dan Davidson

Yearbook.

Marshall Hoffer

ED AGNEW

"Oracle" comes to dentistry from Brandon College. This star of the physiology tutorials is vice-pres. of first year.

SCOTT BAKER

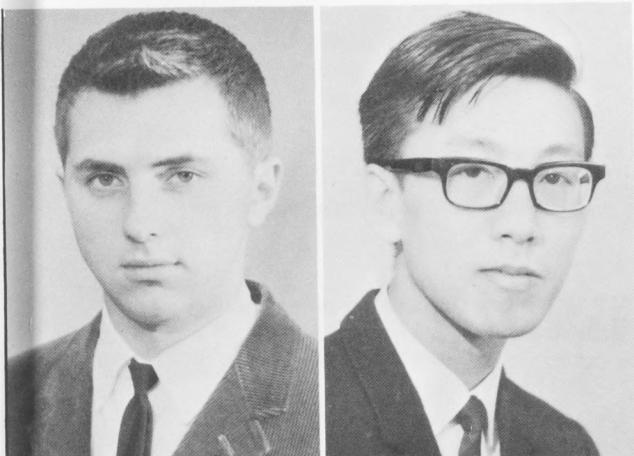

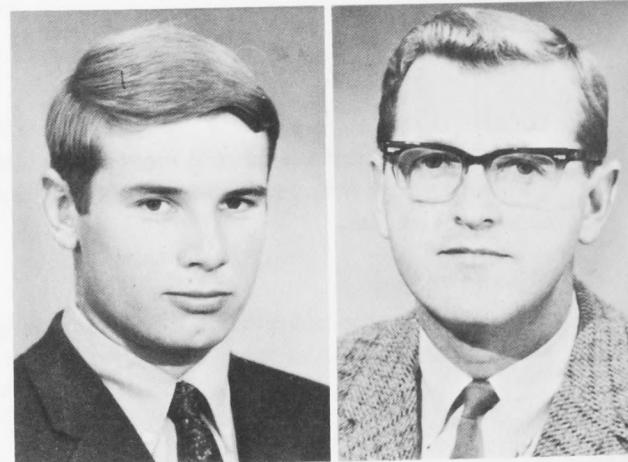

Scott hails from U. of W. His bubbling personality is a necessity on Monday mornings. Ambition - Dentist. Fate - physiologist.

RON BOYAR

Ron always comes up with good (?) questions for Dr. Dawes. Ron is the athlete of first year.

JACK BRAUN

Jack is the father image of us all. By his marks it is clear he has more brains than "brawn".

WILLIAM BUCHANAN

Predental education at Brandon University. Bill is a steady, serious, conscientious student. One of the quiet members of the class.

DAVID CHAN

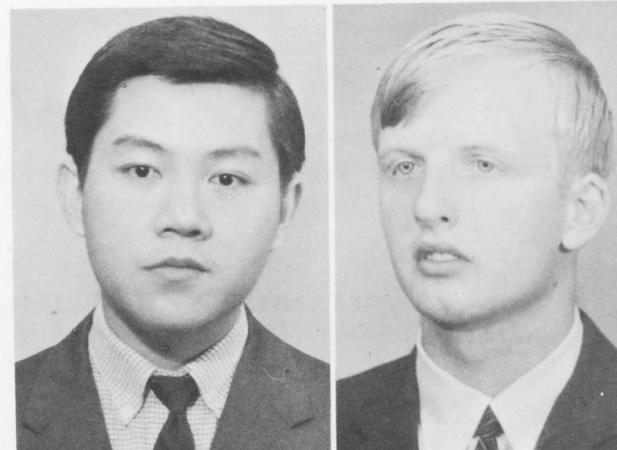

A former U.C. resident and an enthusiast in the gross anatomy lab. Ambition - to speak English

RAYMOND CHIU

Ray from Hong Kong has been with the university for two years. Combining academic excellence with pleasant sociability Ray is a worthy member of our faculty.

TIM COMISHIN

Tim, who hails from the Lakehead, came to dentistry with a physics degree. Tim is an avid skier who prides himself on never combing his hair.

CHARLES DADZIE

Charles is a colorful character from Ghana. An avid politician, he enjoys discussing world problems with the C boys in gross lab.

DON DAVIDSON

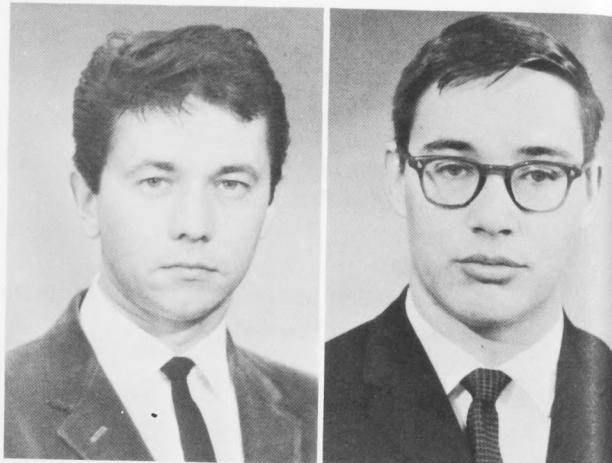

Agriculture's contribution to dentistry. He is probably here to study dentistry and later on to practise on cows and sheep.

EUGENE DOROSH

"Gene" a product of the thriving metropolis of Ituna, Saskatchewan, graduated with a B.Sc. from the U. of S. A conscientious and industrious student.

IAN DUDUMAN

Ian is hard working and quiet, but in card playing he sure puts up a fight.

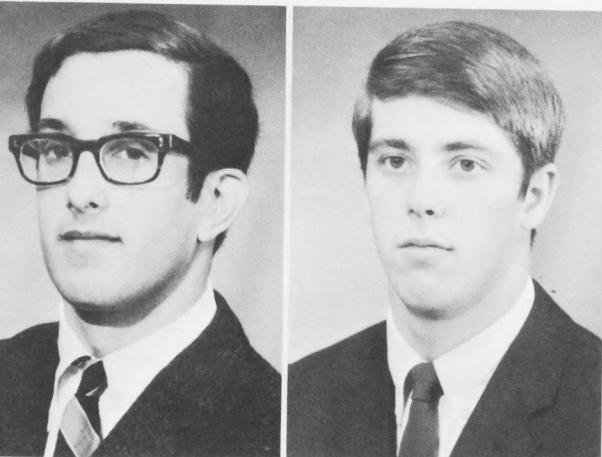

ALLAN FINKLEMAN

Born with a drill in his hand he appropriately decided to enter dentistry. He is also a part-time whipped cream enthusiast.

IAN FRASER

Being of inquisitive nature Ian can be counted on to question the pros. Of course his questions are accompanied by slides.

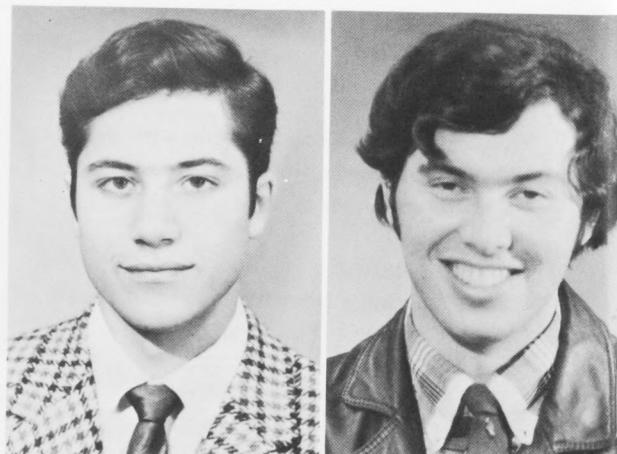

MORLEY GOLDBERG

Moe can be often overheard discussing Gordie's prowess on the ice. A quiet guy who knows his studying will pay off.

ROSS GOLDEN

Courtesy and neat appearance will get Ross a long way in dentistry. Ambition toothpuller....Fate barber.

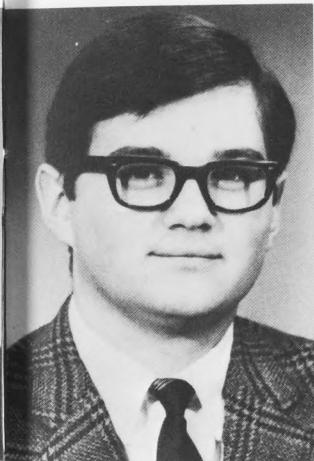

KJEILD HANSEN

"Old man" Hansen, as he is commonly called, is the leader of the whipped cream fan club. He was once seen trying to sell his home-made dentures to Dr. Wallace.

MARSHALL HOFFER

Mr. Hoffer is the thinking man of the class. Rarely caught studying, his thoughts tend to be far far away....like Europe.

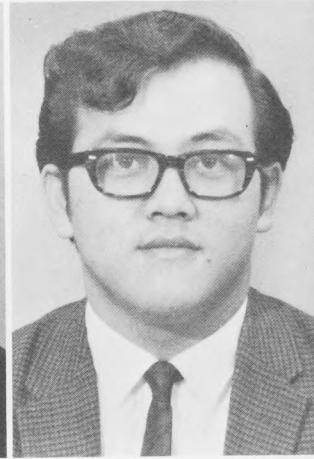

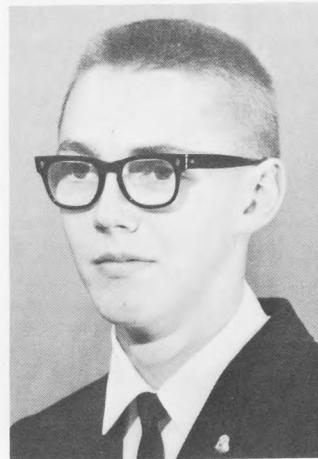

CLIFF HRANKOWSKY

Cliff comes to dentistry from Wpg. Beach. He attended U. of W. last year, but is so pleased with his lab partner that he'll probably be back next year.

BARRY KENDALL

"Muff" as he is deservedly called is one of our more youthful members. His world revolves around geriatric Go-Go dancers, dental anatomy and one I.D. card.

GRAY LYSECHKO

The wild man from Melville. He is constantly seen conning in Dental Hygienists to volunteer as cadavers. Hopes to practise in Plum Coulee.

PENG OW

"I am a Chinese student" he says, We stick together". Understands everything until he has to repeat it.

KEN SAWCHUK

The man from Rainy River. A hard working, conscientious guy who will be going places...no one knows where.

MICHAEL SOLOWAY

Mike is continually worried that "this thing is going to drive me crazy". To detract from these worries he often reverts to his love affair with "Big Bertha".

BOB SOROCHEAN

Bob is our energetic president, part-time hockey player and star of the football squad. When not off with Allan, he's preoccupied with Big Bertha.

RON STARZINSKI

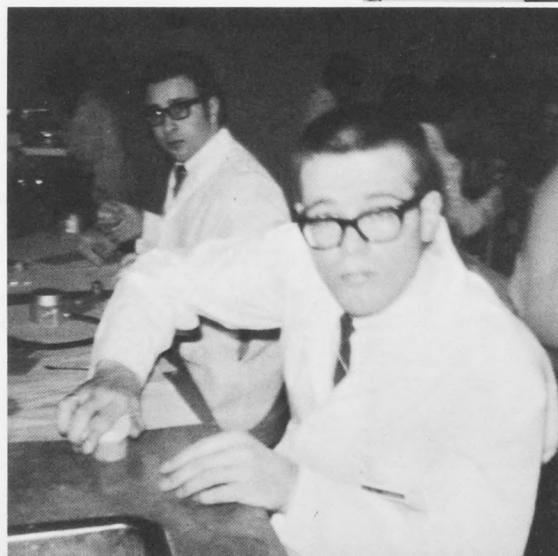

"Starz" is the only one armed star of the 8 man football league, and he was Crowned Royal for that. But his pro ball career may be interrupted by his latest hobby, Dentistry.

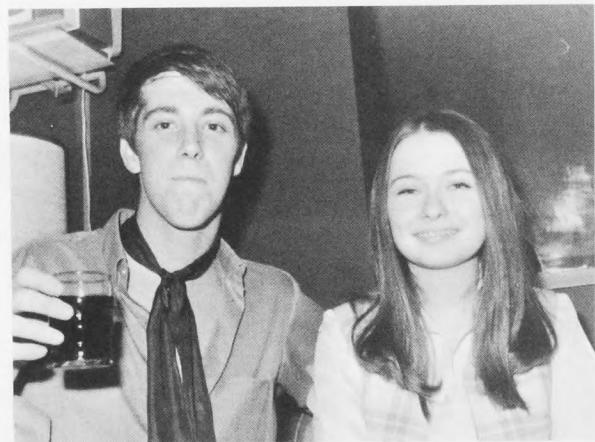

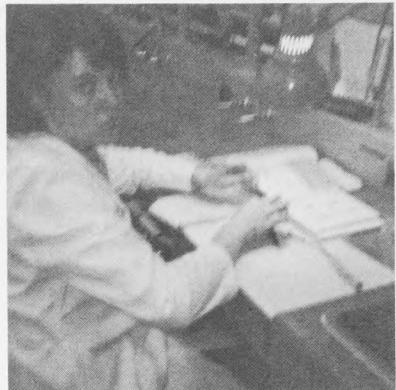

MEL TRACEY

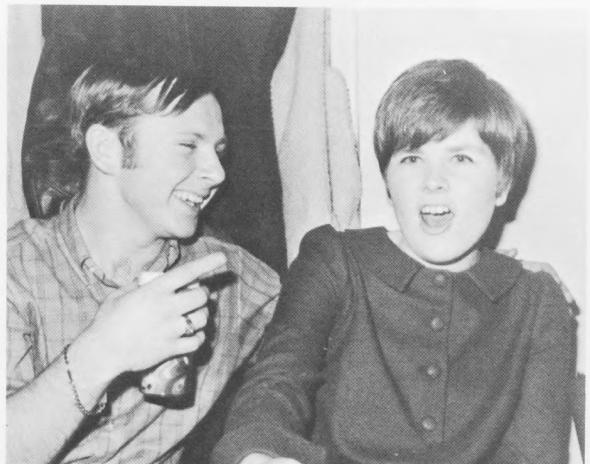

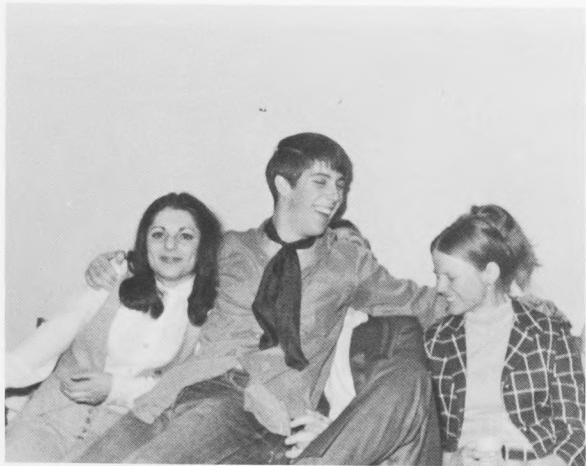

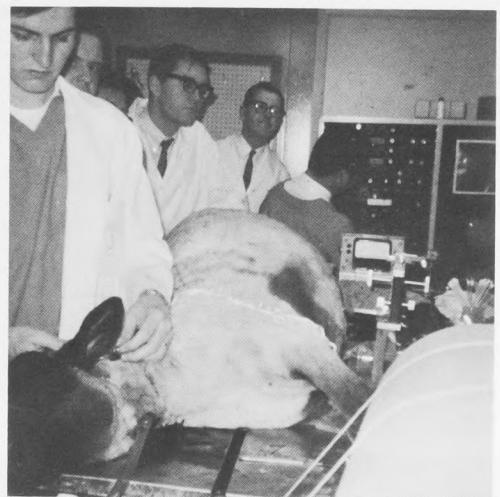

He can be heard in the gross lab saying, "Cut it off, we don't need it anyways, Now we can see the deerer structures.

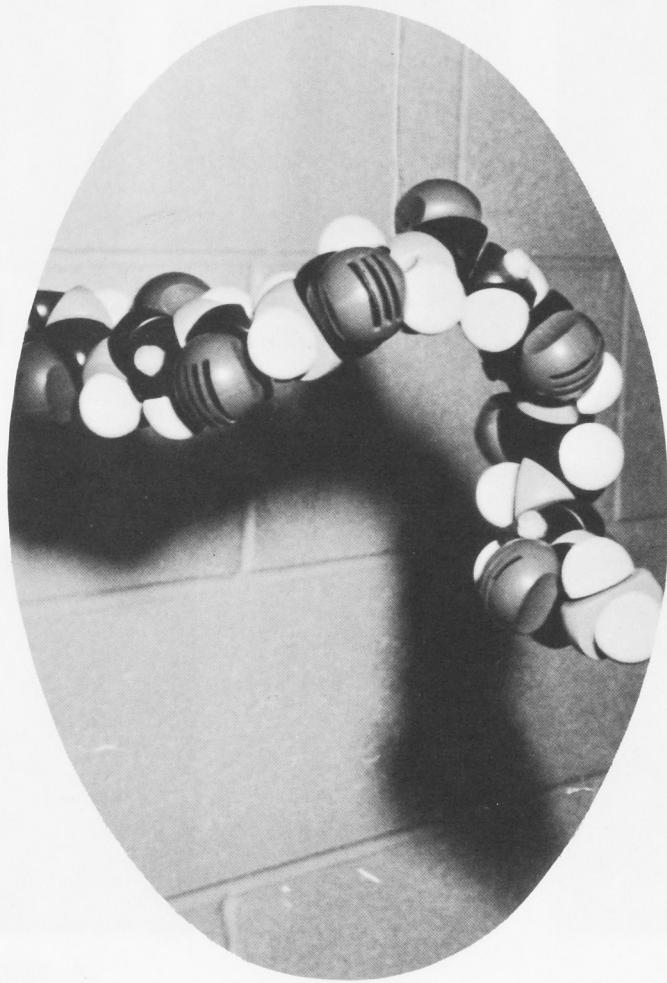

DONNA VAICHAITIS

Being our only female, Donna's presence is appreciated by the class. A recent arrival from Lithuania, she manages to smile her way through trouble with the language.

ACTIVITIES

FOOTBALL

Football:

In an unprecedeted rise to success, the Dentistry football team swept through an undefeated season to win the Senior Eight-Man Interfaculty Football Championship. In the three years since the dentists split from the joint Medicine - Dentistry teams, the Dents have put together an unbeatable machine. Coached expertly by Les Allen, the Dentistry Devils produced the phenomenal record of: 168 points for

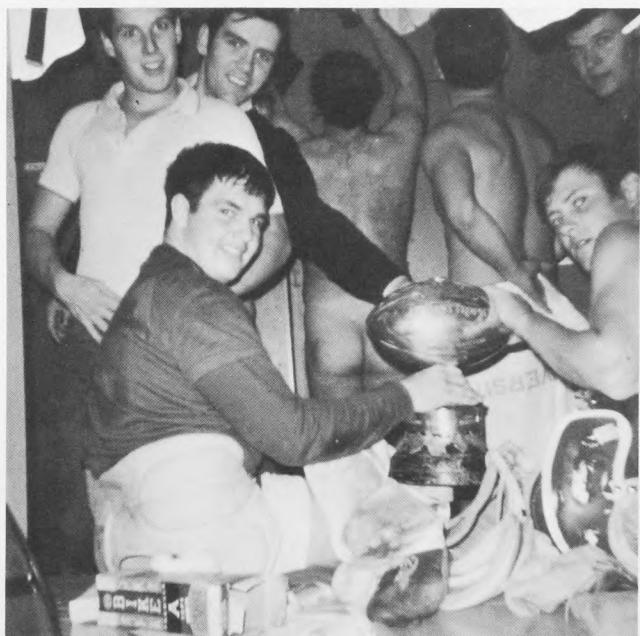

7 points against, in the five league games during the regular season, before defeating the Engineers 46 - 31 in the championship game.

The stars were numerous, but we cannot go without mentioning Ron "The Rifle" Martin at quarterback, Lawrence "Honeymoon" Stockton at halfback, and Lorne "Headhunter" Neff, middle linebacker and defensive captain.

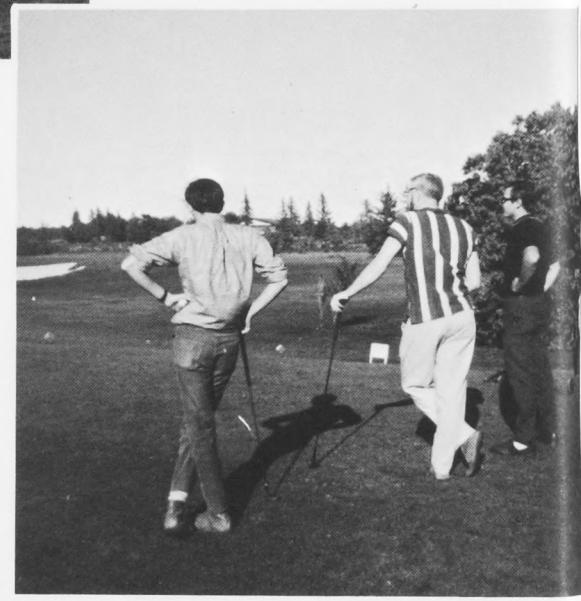

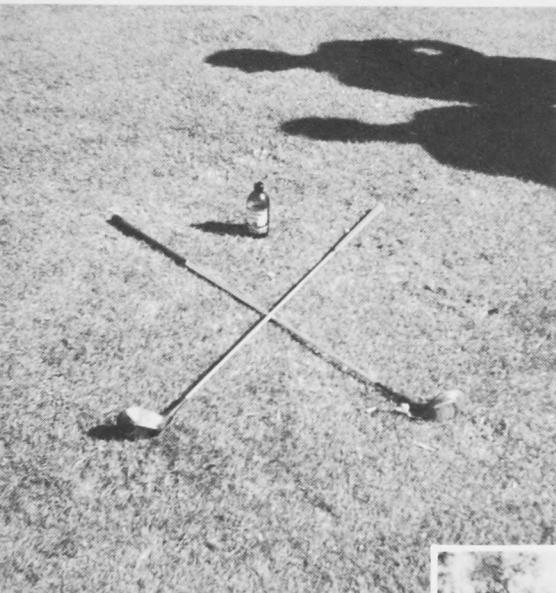

But we must beware, for nine veterans retired at the end of the season. Success next year is dependent upon increasing student participation and spirit.

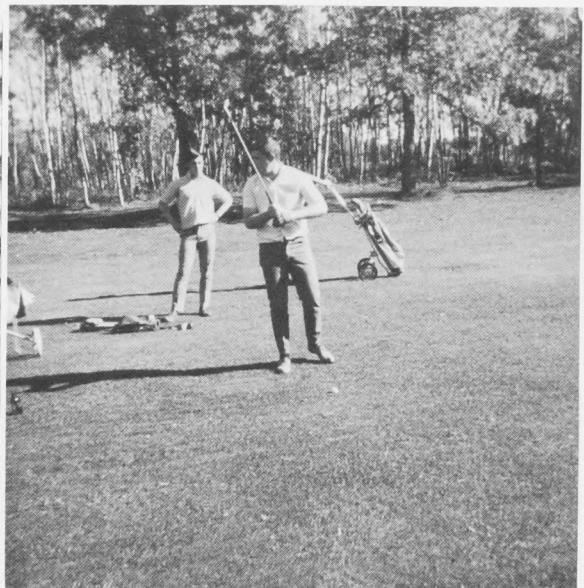

GOLF DAY

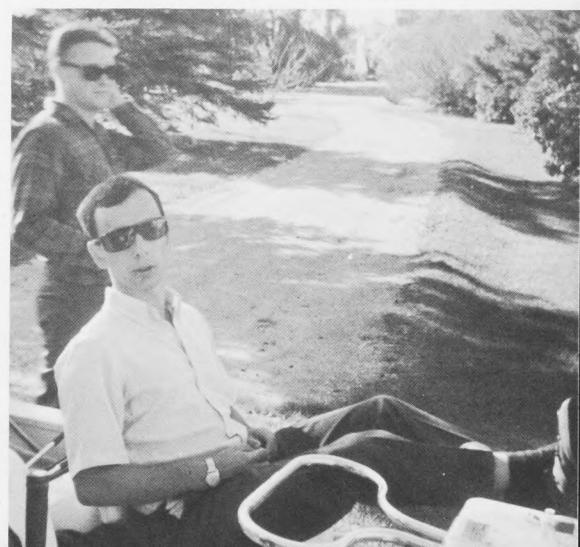

"I wish the dean would play a little faster."

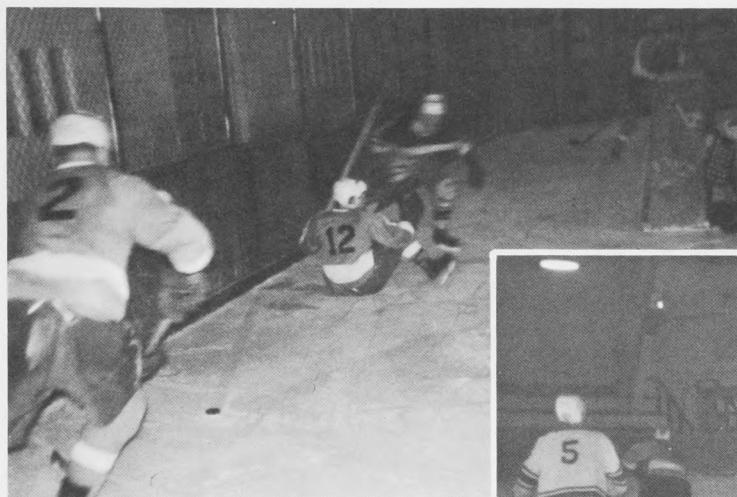

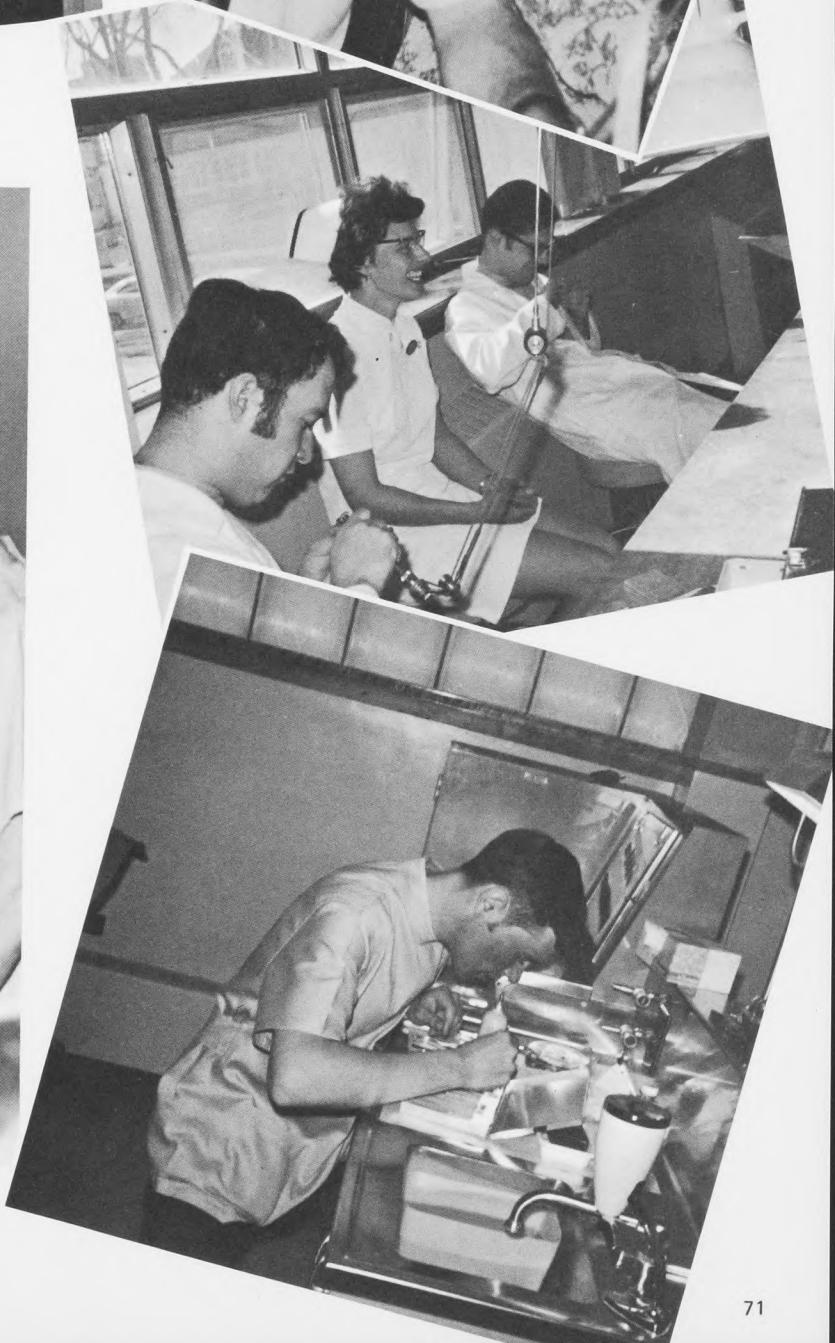

"Sure hope this coke lasts the full game."

Uh where was that green again?

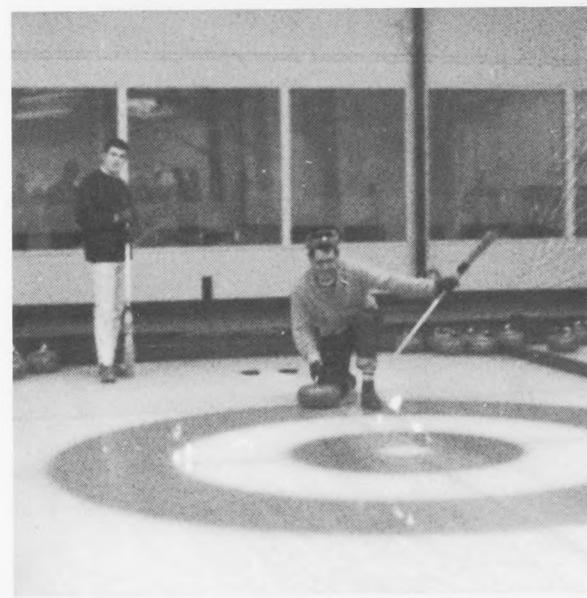

HOCKEY

DIRECTOR'S MESSAGE

The class of '69 of the School of Dental Hygiene has eighteen members, ---exactly twice as many members as the first class, that of 1965. This four year interval has seen not only an increase in numbers of graduating and practicing hygienists, but a phenomenal growth in the number and variety of opportunities available to them. Whether they be in private practice, public health, dental clinics, research, hospitals, or education, the opportunities are many and sometimes diverse in their requirements, offering each graduate a wide choice. During the past two years these students have proved intelligent, diligent, co-operative and resourceful. The faculty of the School of Dental Hygiene is confident these traits will ensure that they will be energetic, effective members of the dental profession in whichever aspect of their profession they elect to pursue. We wish them every success.

Mrs. M. Forgay

SENIOR STICK'S MESSAGE

"Nothing is good or bad but thinking makes it so."

Our thoughts make us what we are---individuals. The success that really counts has to do with being yourself--your own self. Let us hope; therefore, that each of us will retain the ability to just be ourselves, for once we lose this ability, we lose everything.

Karen Tadei

SECOND YEAR

COLLEEN ANDERSON: Our D.F.S.A. representative. She got through Dental Hygiene with one shovel, one mouth and two left hands. After Australia rejected her, she decided to practice in Winnipeg.

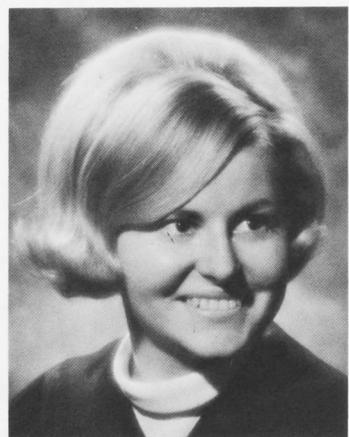

BARBARA BELCHER: Bewitched, bewildered and bewondered but she seems to know what she is doing. Barbara plans to practice with the Department of Public Health in Manitoba.

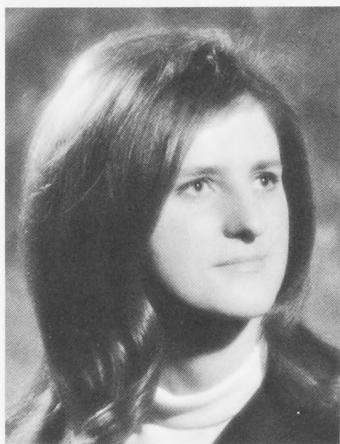

LINDA BROWNSTONE: Linda is the only girl who has taken the time to figure out how little time it takes to complete her courses. She plans to head west---where else?

CAROL CIASKO: What is the big attraction at the Kelly House? Carol plans to practice in Winnipeg.

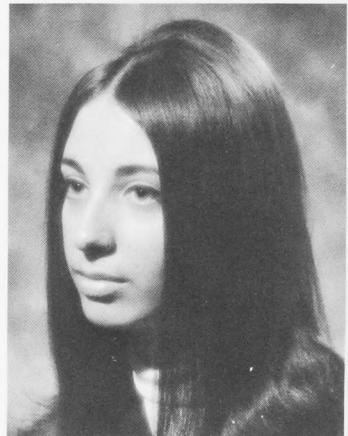

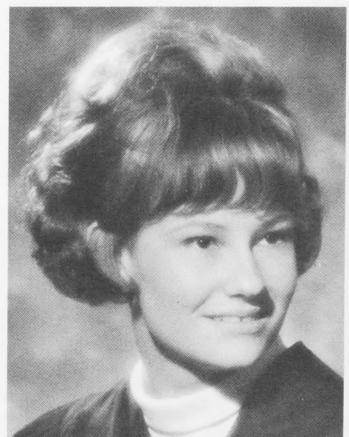

ELAINE COLUMBIA: Our D.F.S.A. representative. Beg, borrow or steal. Elaine arrives at classes well equipped.....at least with pen in hand....5% of the time. Future plans: -to add to her hair collection. - to keep her diastema closed. - to practice in Winnipeg.

CAROL GUTKIN: Our treasurer. Confuscious Say--"Never too old to wear bands". Carol sometimes finds time to attend classes in between coffee breaks. She is planning a fall wedding---will she be ready? Future plans: -to hire a personal hairdresser. - to practice in Winnipeg.

VERONICA HURYN: Why are you writing your American boards when you don't know if you are coming or going? She is our U.M.S.U. representative. Ronnie plans to practice with the Department of Public Health in Manitoba.

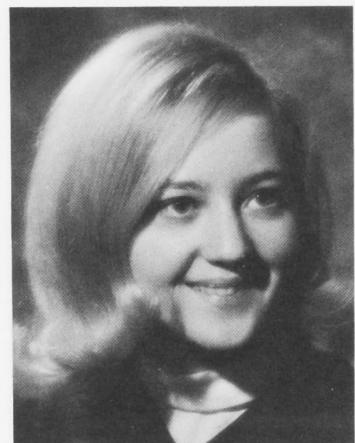

SUSAN JOHNSTON: Susan started the year off with a bang!!right into Kerr's car but nevertheless she won the scavenger hunt. Future plans -to graduate from dental hygiene.

MARLENE JONES: She is worried when she is not worried about something. Marlene plans to practice in Ontario.

IRENE LUTZ: Our Snow Queen Candidate and yearbook representative. Connie's partner in crime. The dynamic duos antics will shortly come to an end---for Irene is soon to become Old Mother Hubbard. She plans to practice in Vancouver.

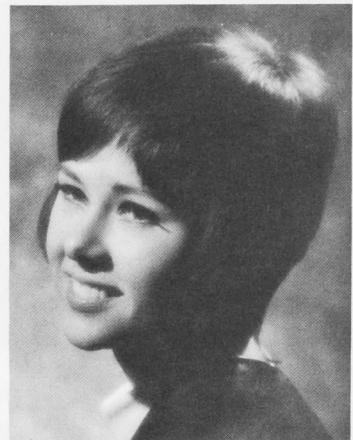

MARY ELLEN McLARTY: She is a good kid but she is about four days late. She tries. Her future plans include employment in Saskatoon, Saskatchewan.

LINDA MEYERS: Bubble, bubble, "Toil or Trouble". What's Linda brewing this time? She says a prostho patient can be done in one period. Is that a rumor? She plans heading west to become Vancouver's first female denturist.

COLLEEN MURPHY: Our secretary and photographer plans to practise with the Department of Public Health in Saskatchewan. Incidentally we hope she takes that!#*&+=" camera with her.

SHELLEY SENTON: Our social representative. Due to her stunted growth Shelley had developed other means of becoming the center of attention. Her hearty and infectious giggle has labelled her "the girl never seen but ALWAYS heard. She plans to take up roots in Vancouver.

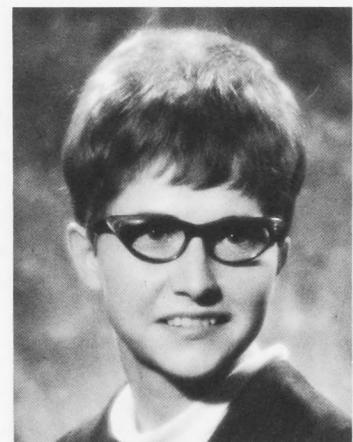

CONNIE SEXSMITH: Our yearbook representative. Her name resembles her mind. Constance that is. She plans to seek her fortune in Vancouver.

GAIL SMITH: The dental hygienist is responsible for making the patient ready, willing and "ABEL". She is our class president. Gail plans to stay in Winnipeg.

KAREN TADEI: alias Karen Tidy. "Sticks on the warpath again." If you are ever missing anything, it was probably thrown out with last weeks garbage. Karen plans to practice with the Department of Public Health in Saskatchewan.

SALLY WELYGAN: "Welygan does Well." Is that a chicken joke? Sally is heading back to her native province where she will be employed by the Department of Public Health.

GRADUATES 1969

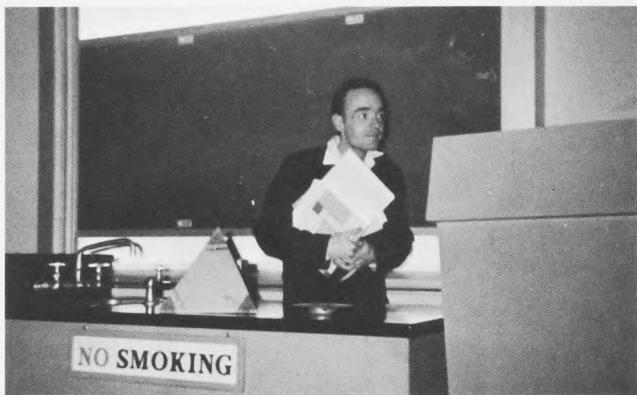

Who says I can't read x-rays.

What a way to get revenge.

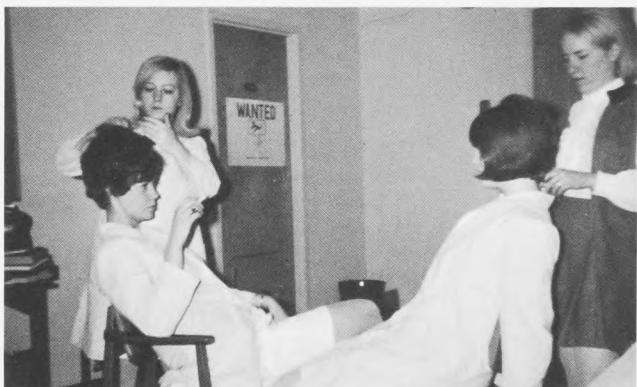

What else would I be doing.

Hm. Is there a class today?

Why the hell can't we wear black shoes.

They missed their calling.

Then she said, "There's calculus at the apex of the four."

The day after the night before.

The Thinker.

I bet you're all wondering why I called you here.

If you gotta go, you gotta go.

They'll never find us here.

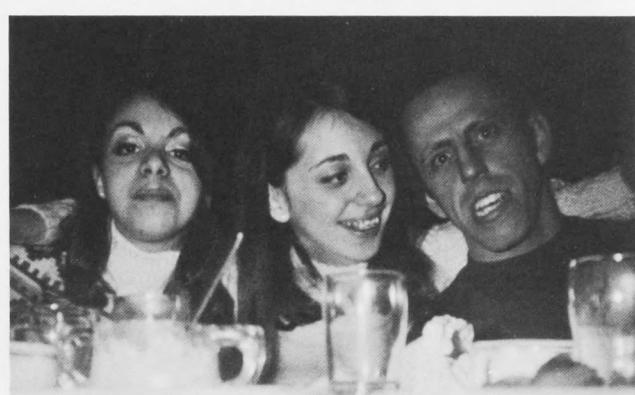

o.k. girls, one more time.

Food for thought.

Guess Who?

All for one and one for all.

Bioblend® Teeth make any denture look more natural.

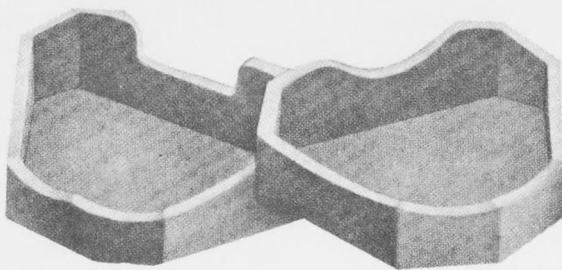

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

DENTSPLY CANADA, LIMITED TORONTO 2B, ONTARIO

Good Study Models Make a Good Impression on Patients

COLUMBIA RUBBER MODEL-BASE FORMERS

Make Neat Bases
on Study Models

per Set—1 Upper and 1 Lower

No. R1X ----- \$6.00

No. R1 ----- 5.00

No. R2 ----- 5.00

No. R3 ----- 4.00

Use Columbia Model Gloss for
stone or plaster models.

To have perfectly smooth, symmetrical, nicely finished bases on your study models, simply pour plaster or stone into formers and mount anatomical casts. After plaster has set, a beautiful set of models is easily removed from the soft, flexible model-base formers. Directions tell how these formers enable you to make upper and lower models which occlude automatically.

DENTAL PRODUCTS by LANG

FORMULATED TO PRODUCE THE MOST
EXACTING, SATISFYING RESULTS

JET TOOTH ACRYLICS

for temporary crowns, jackets, facings and partials. Jet Repair for fast emergency repairs. Ortho-Jet for making Orthodontic retainers, etc.

WHITE BEAUTY ALLOY

The brighter... easier to work Amalgam. Has smoother texture and better carving qualities. Available in regular or fine grain mesh and 6 Grain Nuggets.

FLEXACRYL-HARD

A self-curing Denture relining material. It sets hard and strong... is totally bland. All smarting and burning is eliminated since Flexacryl-Hard does not use any volatile acrylic monomers.

ELASTIC IMPRESSION POWDER

Assures maximum accuracy in the resulting impression every time. Special high viscosity formula makes patients' chair time more pleasant.

S. C. L.

A new zinc oxide eugenol cement that combines the advantages of the anodine action of Eugenol and zinc oxide with fast-setting and high compression strength.

REBASE ACRYLIC

Lang's self-curing Rebase Acrylic is formulated to reduce the burning sensation caused by self-curing monomers. Rebasing is done directly in the mouth without the use of protective barriers. Fast and easy to use.

INSTANT TRAY MIX

Affords you 6 minutes working time plus a complete set in less than 9 minutes. Has delicate mint fragrance... comes in Nile Blue, Mint Green and Bone White.

TEMPO

A unique soft cushion relining treatment and functional impression material that can be applied to dentures as a cushion treatment relining that eases denture discomforts until patient adjusts to their use.

Look for the Lang trade name... it's your guarantee of the finest materials made.

It's all in the Touch!

**STRONG OR FEEBLE?
THE PULSE IS A TRUE
INDICATOR!**

Just as a strong or feeble pulse indicates the condition of an individual, so does the economic pulse of a community reveal the degree of "life" in a location.

Your Ash Temple representative is a professional in location "pulse taking". He can measure and evaluate the many types available and answer your questions with authority and intelligence. He can, also, give you all the facts and ideas you need on office planning and design, equipment, day-by-day supplies and the many Ash Temple "plus" services he can offer.

Prove, at the outset of your career, how much MORE Ash Temple can contribute to the success of your future.
